Title: Developing AI as a Transformative Global Catalyst: The $C = G \times I^2$ Framework

Manuscript ID: 2026-08-0174-RES-TTS

Target Journal: IEEE Transactions on Technology and Society

Author Information:

- **Name:** Dr. Somchet Isarankura (Independent AI Safety & SDGs Researcher, Bangkok, Thailand; Primary Email: somchet@aol.com; Portal: somchet.eu5.org)

Global Identifiers & Copyright:

- **IEEE Member ID:** 102595192
- **ORCID iD:** 0009-0008-0325-8134
- **Zenodo DOI:** 10.5281/zenodo.20765775
- **Copyright:** DIP Thailand Registry Number Vor.003551

INSTITUTIONAL INDEPENDENCE & DECLARATION OF CREDENTIALS

The author, Dr. Somchet Isarankura, hereby explicitly declares that all conceptual designs, mathematical architectures, and empirical digital twin tracking data constituting the " $C = G \odot I^2$ Framework" have been formulated, developed, and finalized under a completely autonomous and independent research track. This technological innovation operates entirely outside the jurisdiction, administrative purview, or institutional oversight of Atlantic International University (AIU). The academic footprints and global registries established under IEEE Professional Member ID: 102595192, ORCID iD: 0009-0008-0325-8134, and Concept DOI: 10.5281/zenodo.20765775 function strictly under sole independent ownership, fully protected by Thailand National Copyright Registry Number: Vor.003551. There are no outstanding institutional dependencies, third-party asset constraints, or structural ties remaining with the legacy portal.
